

Transforming The Power Industry: Winners And Losers In The Evolving Electrical Steels Market

A confidential report on the
Grain-Oriented Electrical Steel (GOES) Market
Specifically Focused on the Outlook
for High Permeability (HB) Material

Prepared By Becky E. Hites, Charles A. Stitt
& Dr. Gwynne Johnston

December 1, 2017

Information included in this report is believed to be true and all of the authors have exercised due diligence in obtaining the data from market and private sources. This report is not intended to be the sole basis for making an investment and the reader is cautioned to exercise additional independent due diligence before making any investment decision.

Table of Contents

Strategic Overview.....	5
Supply Has Expanded Dramatically As Barriers to Entry Have Been Overcome	9
Capacity Expansion From 2006 To 2013 Will Flatten Through 2020.....	11
Consumption At New High With Global Economic Expansion.....	14
Consumption Forecasts.....	20
Electricity Consumption Drives GOES Demand.....	25
Structure Of The GOES Market Influenced By Several Factors	29
Transformer Market Profile.....	33
Distribution Channel Today Includes Expanded Options	39
Channel Participation Decisions Are Situational - Pros & Cons.....	47
Strategic Analysis Of Expansion Of Downstream Activities	51
Key Customer Priorities: Cost, Product Quality & Delivery Performance Top The List	58
Distribution Channel Benchmark Comparisons For GOES Exporting Mills	60
Consuming Segments Market Profile By Region	61
Trade Cases Impact The Market Dynamics, But Not Always As Expected.....	70
Transformer Energy Efficiency Requirements Have Changed The Market Standards..	73
Transformer Design Decisions Driven By Performance & Cost	79
History Of GOES Grade And Thickness Evolution.....	80
All Capacity Is Not Created Equal; HB Supply Fully Utilized	87
High Permeability (HB) Expanding Market Share	90
The Asian Factor Propelled The HB Production Expansion	91
Asian Suppliers Substituting HB For RGO	92
Factors Effecting The Use Of HB Products	94
Amorphous Transformer Use Remains Limited to Wound Cores.....	95
History Of The Development Of Grain Oriented Electrical Steel (GOES)	99
History Of The Development Of High Permeability (HB) GOES.....	101
Typical Processing & Equipment For Production Of HB GOES.....	103
History Of GOES Supply Development	107
Pricing Reverses Direction; Now Modestly Positive For The Next Half Decade.....	108
Main Cost Differential Between RGO And HB Used To Be The Yield Loss	114
Future Pricing Wild Cards Scenario Analysis	118
HB Premiums Now Tied To Market Dynamics; Historic Spreads Re-Emerge.....	120
Cost Estimate Methodology	120
High Silicon Hot-Rolled Band Cost Ranking by Country	121
RGO Cost Ranking by Mill.....	123
Capacity Additions Likely To Resume After 2020.....	125
Producer List & Capacity.....	129
Producer Profiles, Equipment, Strengths & Weaknesses.....	130
Peer Ranking Comparison.....	139
Processing Configuration By Company	152
Technical Specifications By GOES Producer.....	154
Supply And Demand Outlook For Major Consuming Regions.....	164

Production, Exports, Imports & Consumption by Country by Year Tables	199
Production Charts By Country, 2006-2030f.....	212
Production by Country 2012-2022f.....	214
Consumption Charts By Region & Country, 2006-2030f.....	215
Consumption by Country 2012-2022f	217
Exports by Country 2012-2022f.....	218
Imports by Country 2012-2022f.....	219
Capacity Charts By Country, 2006-2030f.....	220
Capacity by Country 2012-2022f.....	222
Utilization by Country 2012-2022f.....	223
APPENDIX I - Definition of Terms.....	224
APPENDIX II - Electrical Steel Grades By Core Loss	226
APPENDIX III - Import Data, 2006-2016, ISSB.....	227
APPENDIX IV - Export Data, 2006-2016, ISSB.....	230
APPENDIX V - Trade Data By Country Top Importers.....	233
APPENDIX VI - Customer Survey Consolidated Results.....	243
